Agenda

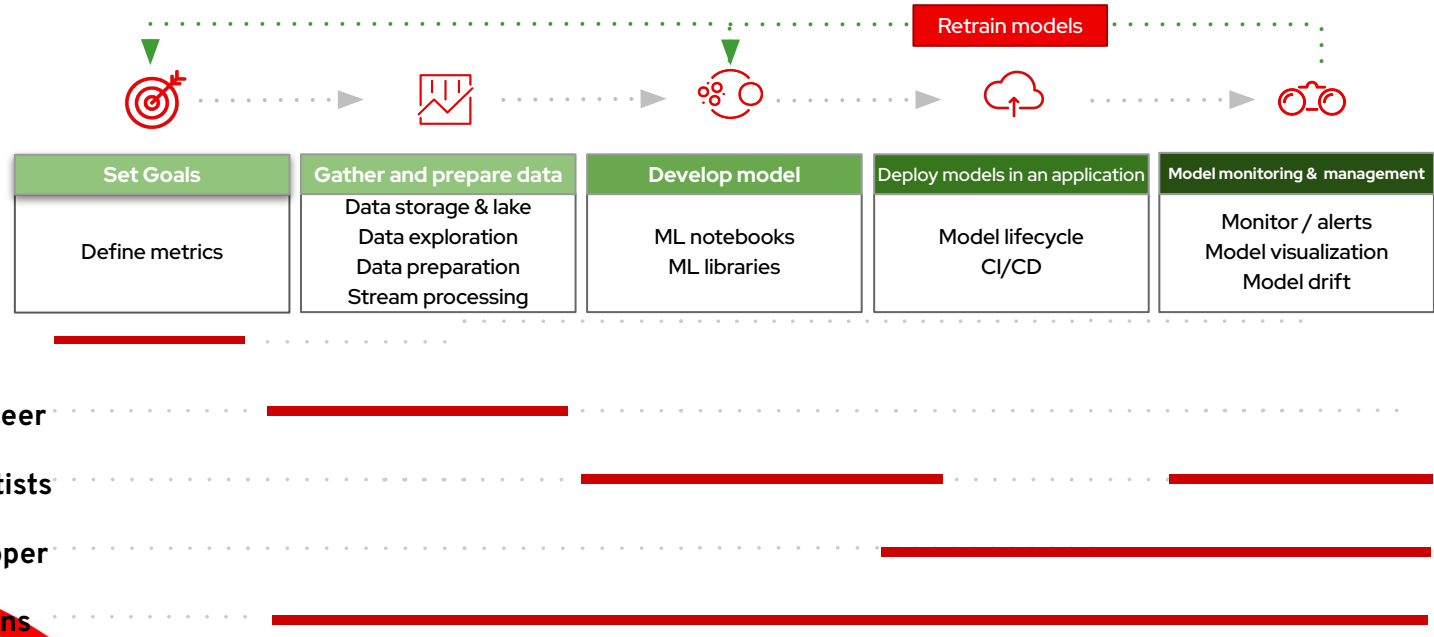

- ▶ What is a Data Science Model lifecycle?
- ▶ Data Engineering & Its importance
- ▶ Data Science Model Lifecycle
 - onPrem with Open Data Hub (ODH)
 - in the public (or hybrid) cloud with Red Hat OpenShift Data Science (RHODS)

What is a Data Science Model lifecycle?

"A data science life cycle is an **iterative set of steps** you take to deliver a data science product/ML model"

Data Science Model Lifecycle steps & Personas

Questions so far...

Open Data Hub is an open source community AI/ML platform on Openshift

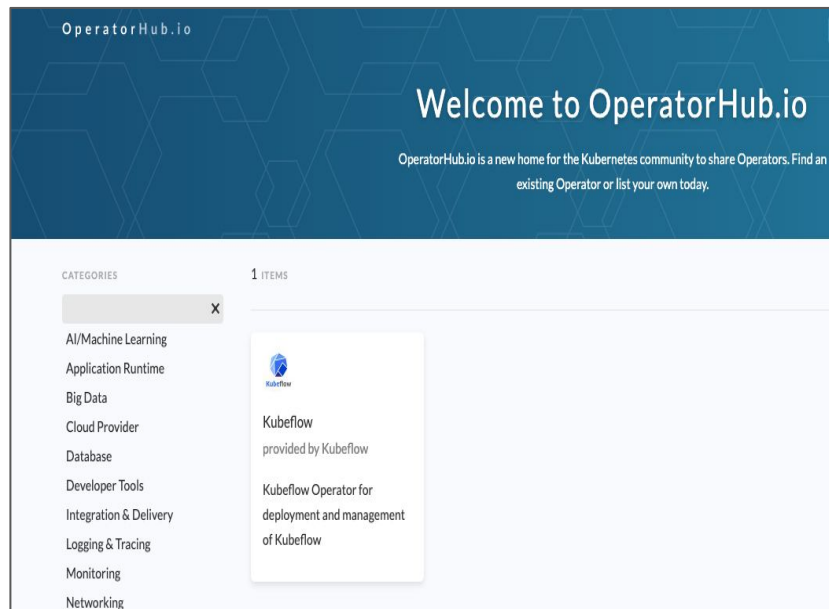

Open Data Hub is an Operator installed from OpenShift OperatorHub

OPENSHIFT

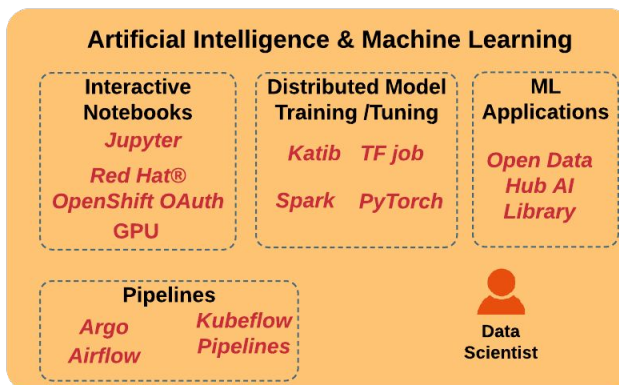

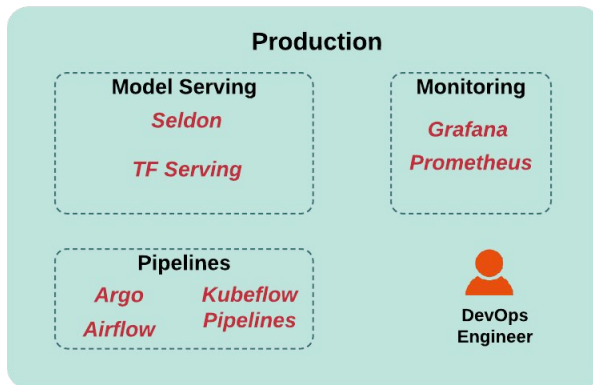

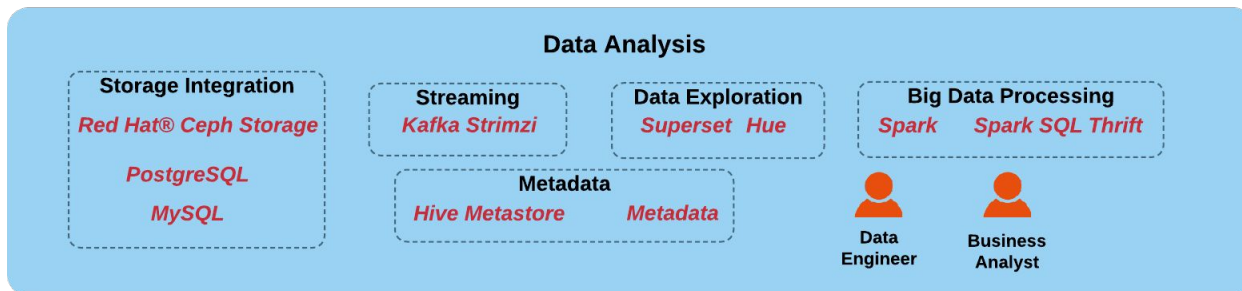

kubernetes

Open Data Hub integrates
open source projects into an
end-to-end AI/ML platform on
OpenShift

Open Data Hub comes with an ecosystem provided by Red Hat and Certified Partners

AI/ML Pipelines

A reproducible workflow that can be used to automate repetitive steps in a machine learning workflow.

Why AI/ML Pipelines

Automating Manual Tasks

Better Reproducibility

Monitoring and Tracking

Tools for AI/ML Pipelines

Elyra

Notebook pipelines visual editor

Kubeflow

Kubeflow Pipelines

Build and deploy scalable ML workflows

Based on Open Data Hub and Operate First

Upstream code enhanced with operational excellence

Open Data Hub

Community driven upstream meta-project demonstrating AI/ML platform on Red Hat OpenShift comprised of open source projects

Operate First

Subset Open Data Hub operated at scale for community and university audiences to infuse operational excellence

Red Hat OpenShift Data Science

Subset of Operate First delivered as a cloud service on Red Hat OpenShift Managed on Amazon Web Services with optional ISV offerings

Questions so far...

Red Hat OpenShift Data Science & our Partner Ecosystem

Red Hat managed
cloud platform

Open hybrid cloud platform with self service capabilities

Red Hat OpenShift Data Science & our Partner Ecosystem

... Red Hat Data Science is award winning for AI/ML

- ▶ OpenShift Data Science selected as the winner of the 2022 "Overall Data Science Solution of the Year"
- ▶ Data Breakthrough Awards - program founded to recognize the data technology innovators, leaders and visionaries in categories, including Data Analytics, Big Data, Business Intelligence, Data Storage and more
- ▶ More than 1850 nominations

- ▶ Why Red Hat OpenShift Received the EMA Top 3 Award for MLOps
- ▶ The Red Hat OpenShift open hybrid cloud platform enables organizations to rapidly spin up new machine learning stacks and move machine learning models through the MLOps pipeline
- ▶ Open Data Hub Operator turns OpenShift into a Kubernetes-based machine learning as a service platform
- ▶ Red Hat OpenShift Data Science offers a turnkey managed data science environment

Questions so far...

Explore an open platform and infinite possibilities

Red Hat® OpenShift® 4 represents a significant change in the way that OpenShift clusters are created, deployed, and managed.
